A meet for bonding

ACTION BEGINS from thought and appropriately enough, the annual getting together of NGOs has been named Sindhanai.

Built on the aspirations of a few Chennai citizens, Sindhanai hopes to bring together social work professionals as a group in the city, forge alliances and bonds between them. It is a team that can build tomorrow's vision for development, according to those who run Relief Foundation, the organisers of Sindhanai. Therefore it is this team that will be built on September 21 and 22, at AVM Charities, Radhakrishnan Salai, Mylapore.

Seventy-five stalls dedicated to 15 sectors in the development ambit will be on show. Among the subjects that will be dealt with are education, health, child rights, women, vocational training, rural development and the like. So what are all these diverse groups going to get together and do, you might be tempted to ask. ``Being a part of a multidisciplinary form creates an opportunity for synergy of thoughts, ensures substantial increase of contacts and heightens visibility for the cause'', the organisers say. Relief Foundation can be contacted at 4916854.
